Meeting Schedule Assistant v18.1.2

I am pleased to announce that there is a new version of *Meeting Schedule Assistant* available.

Sing Out Joyfully To Jehovah - Setswana

The editor now supports the new song titles in **Setswana**. Your schedule must have a start date greater than or equal to *May 7th, 2018*.

Sing Out Joyfully To Jehovah - Slovenian

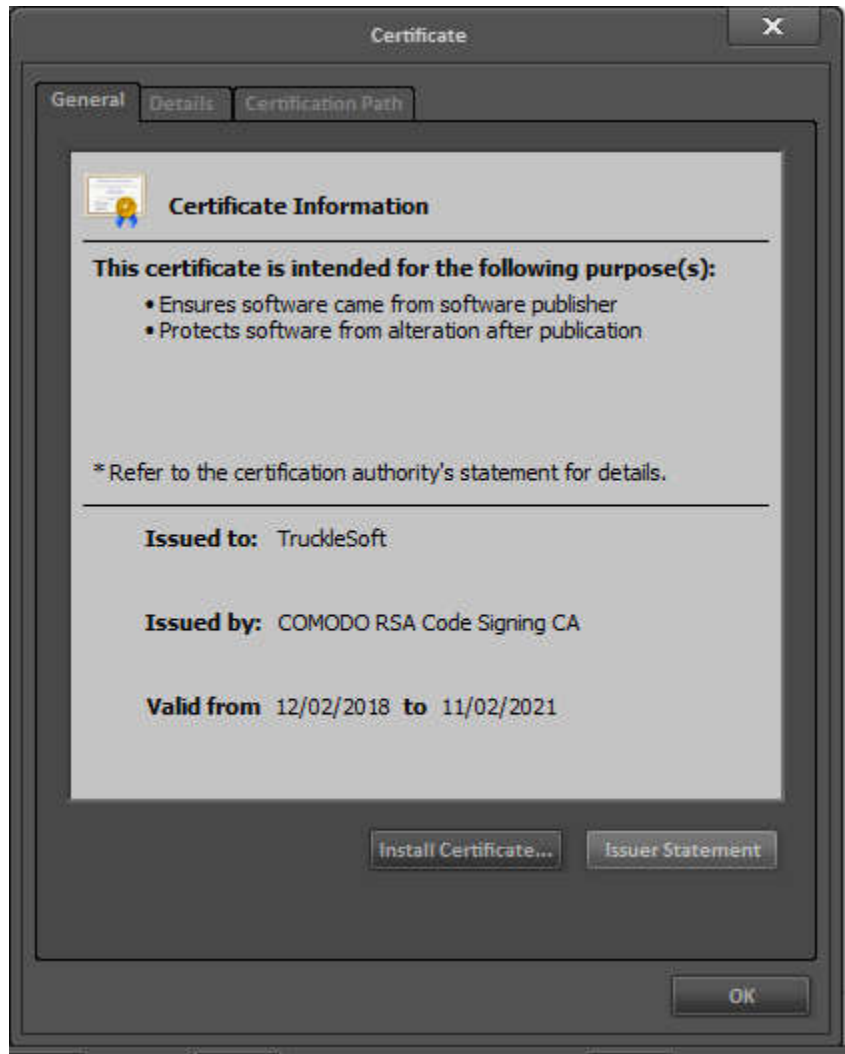

The editor now supports the new song titles in **Slovenian**. Your schedule must have a start date greater than or equal to *May 7th, 2018*.

Please be aware that we do not have an active Slovenian translator for the application.

Digital Certificate

I don't think I mentioned this in my last newsletter. As you are most likely aware I **digitally sign** my applications for added security. Recently I had to purchase a new certificate from another company which lasts for another 3 years:

As a result it is possible that your antivirus might raise a false detection. The application is absolutely fine. I have already submitted it to **AVG** and **Avast** for their *global whitelist program*. Please let me know if you encounter any virus warning with your antivirus software.

For those that don't know, **TruckleSoft** is the name of my secular business (www.trucklesoft.co.uk).

(Or use the [Check for Update](#) feature available from the **Help** menu)
